

Landscape Maintenance Proposal ~ 2025 ~

Client: Rosemary Gido
Address: 1301 Springfield Circle
Boalsburg, PA | 16827

Phone: (814) 404-7161
Email: rosemarygido@gmail.com

Date: April 10, 2025

On behalf of Alex's Proscapes, LLC, I would like to thank you for the opportunity to offer our services for your business. Please take your time to review the proposal and feel free to contact us at 814-235-5525 with questions, comments, or concerns. Also, please keep in mind that Alex's Proscapes, LLC, is a customer-oriented service company and we contract a limited number of customers to maintain a high level of customer satisfaction.

Lawn Mowing / Line Trimming: **\$50* / service**

We will visit the property weekly and mow turf areas as needed – the turf will not be mowed during drought conditions, for example. During mowing, we will line-trim around all structures, sidewalks, driveways, etc. and all debris will be blown off sidewalks, driveways, mulch beds, etc.

- 🌿 We will visit the property weekly. If the turf does not need to be mowed, there will be no charge for the visit.
- 🌿 Mower deck height will be set at 3.5" except when conditions necessitate otherwise.
- 🌿 Rain events (and other factors) may necessitate that we mow the property on different days in subsequent weeks.

Weed Maintenance in Non-Turf Areas: **\$75 / service**

State-licensed pesticide application technicians will pull and spray weeds from mulch beds, sidewalk cracks, and other non-turf areas **bi-weekly and upon request**.

- 🌿 Weeds larger (and/or wider) than approximately 2" will be pulled and removed.
- 🌿 Small weeds will be sprayed with strong, effective herbicides in keeping with all relevant regulations. The cost for herbicide and equipment used is included in the price quoted above.

Turf Fertilization / Weed Control:

🌿 **Spring Aeration:** **\$155***

We will aerate turf areas to relieve soil compaction and promote good air flow and drainage.

🌿 **Spring Fertilization:** **\$95***

We will apply a fertilizer composed of slow release, sulfur-coated urea that additionally contains *Barricade*. This fertilizer helps stimulate growth while continuously feeding the grass over the spring months. *Barricade* is a pre-emergent herbicide that helps to prevent the germination of crab grass and many cool season weeds.

🌿 **Spring / Summer Weed Control Application:** **\$95***

We will apply *Three-Way*, a selective herbicide used to control broadleaf weeds, including dandelion, clover, henbit, plantain, wild onion, and many others.

🌿 **Summer Fertilization:** **\$95***

We will apply a fertilizer composed of sulfur-coated urea that additionally contains *Merit*. This fertilizer helps strengthen turf roots needed during summertime hot and dry conditions. *Merit* is an insecticide used to control grubs and other harmful lawn pests that feed on subsurface turf roots.

🌿 **Summer / Fall Weed Control Application:** **\$95***

We will apply *Four-Score*, a selective herbicide used to control broadleaf weeds, including dandelion, clover, henbit, plantain, wild onion, and many others.

🌿 **Fall Fertilization:** **\$95***

We will apply a fertilizer formulated to replenish nutrient concentrations and prepare the turf for dormancy.

Spring Cleanup: **\$50 / person-hour (estimate: 3 person-hrs)**

We will remove leaves and sticks from ornamental beds and turf areas. They will be removed from site and disposed of in an appropriate recycling center or left in neat piles along the property's edge for municipal collection. We will also prune perennial plants and shrubs as necessary. We will visit the property once in March or April to perform a spring cleanup.

Plant Pruning & Fertilization: **\$195**

We will prune ornamental shrubs and perennial plants throughout the property using best practices with techniques and equipment tailored to the growth habits of each plant. All debris will be collected, removed from site, and recycled. Further, we will fertilize / treat plants as necessary to promote plant health and appearance. Pruning will be done prior to mulch installation during mid-late Spring.

Mulch Bed Preparation / Mulch Installation: **\$850**

Mulch bed areas will be prepped by cutting an approximately 3" deep edge (where appropriate) around all mulch beds and tree rings. Great care will be taken to ensure that edges are gently curved with no irregular or oblong portions. We will then apply *SnapShot*, a remarkably high quality pre-emergent herbicide that acts to prevent weed seeds from germinating within bed areas. Debris will be collected, removed, and recycled. We will then install approximately 6 cubic yards of premium quality, triple-shredded, natural brown hardwood mulch in ornamental bed areas and tree rings.

Fall Cleanup: **\$50 / person-hour (estimate: 6 person-hrs)**

We will remove leaves and sticks from ornamental beds and turf areas. They will be removed from site and disposed of in an appropriate recycling center or left in neat piles along the property's edge for municipal collection. We will also prune perennial plants and shrubs as necessary. We will visit the property twice (near the ends of October and November) to perform two fall cleanup services.

Materials list:

The following is a list of herbicides and fertilizers that we commonly use to complete the tasks described above. Labels and Safety Data Sheets will be provided upon request.

Herbicides used for bed maintenance (non-turf areas):

- Quick-PRO (<https://www.siteone.com/en/069311-roundup-quickpro-non-selective-water-dispersible-granule-herb/p/9090>)
- Scythe (<https://www.planetnatural.com/product/scythe-herbicide/>)
- SureGuard (<https://nufarm.com/usturf/product/sureguardsc/>)
- Gallery (<https://www.corteva.us/products-and-solutions/turf-and-ornamental/gallery.html>)
- Lontrel (<https://www.corteva.us/products-and-solutions/turf-and-ornamental/lontrel.html>)
- Fusilade DX (<https://www.syngenta-us.com/herbicides/fusilade-dx>)

Herbicides used for weeds in turf areas:

- Q4 Plus (<https://www.pbigordonturf.com/labels/>)
- 4-Score (<https://www.siteone.com/en/702513-lesco-momentum-4-score-post-emergent-herbicide-1-gal/p/653012>)

Turf Fertilizer:

- Dimension (<https://www.corteva.us/products-and-solutions/turf-and-ornamental/dimension.html>)
- Merit (<https://www.siteone.com/en/291461-lesco-fertilizerinsecticide-merit-02-14-0-14-30-polyplus-50-/p/337924>)
- Lesco organic base fertilizer – 28-0-3 (<https://www.siteone.com/en/098638-lesco-organicorganic-base-fertilizer-28-0-3-20-polyplus-35-b/p/336718>)

General Terms & Conditions

TERMS: ('we' refers to Alex's Proscape, LLC)

We are not responsible for acts of God or the aftereffects caused by: thunderstorms, consecutive days of rain, drought, or any other circumstance caused by nature. Any wash outs that occur will be the responsibility of the homeowner/G.C. In the event of an act of God, we reserve the right to pro-rate our time and materials to accommodate possible financial burdens occurred to the owner/GC.

We will provide all labor and equipment to complete tasks that are outlined in the above contract.
(Subcontracted or otherwise)

We can but are not bound or obligated to furnish soil reports, lawn mowing after grow in, watering plants or lawn areas after construction of the landscaped areas has begun or has been completed. All activities pertaining to the cultural and maintenance practices will be the responsibility of the G.C/ property owner.

All additional items or change orders may be dealt with under a separate contract with Alex's Proscape, LLC.

G.C of the project will provide rough grade and met quality control specifications pertaining to soil work.

Turfgrass is considered a plant, if after 1 growing season the seeded area has less than 95% coverage per 1000ft sq., will re-seed 1 time only. We will only reseed areas that have failed to germinate due to seed failure, not physical disturbances.

We will warranty all woody plant material/ lawn installations for 1 growing season. If we feel our contract obligations (cultural and maintenance practices) were not met, our warranty is invalid. Practices are, but are not limited to watering, mowing, pruning, fertilizing, and pest control). We will replace or repair 1 time during the growing season. (Shipping and mobilization charges may apply*)

We cannot and will not be held liable/responsible for any stoppages in work due to inclement weather, mistakes by other contractors, fuel shortages, strikes, natural disasters, change orders etc. We reserve the right to stop work caused by any of the above said items or change orders. Liquidated damages or mobilizations charges may be assessed due to stoppages.

We will not repair any damage or contract discrepancy that is not reported in the first 30 hours after the job or incident has been completed or occurred. Any damage claims will not be warranted unless claims are made in writing. All work is guaranteed to be completed in a quick and professional manner with attention to detail.

It is the responsibility of the Homeowner/G.C to secure any: permits, survey pins, or engineering reports required by code, or any other government agency.

Seed or sod installation shall not be performed after the 2nd week in October, or begin before the 2nd week in

April, unless terms have been previously agreed upon. (Re: warrantee, over-seeding)

Any unused materials or supplies shall remain the property of Alex's Proscapes, unless prior arrangement is agreed upon before the final contract is signed

In the event of settling due to improper excavation/compaction by another party is not to be covered under the warranty of Alex's Proscapes, LLC.

Rock Clause to be specified as if we encounter bedrock or other rock that requires hammering (hydro or jack) drilling, outside of normal excavation with excavator bucket. All work will cease, and a change order will be created. During this period time and materials will be applied

***By Signing the Proposal Acceptance Agreement, you are agreeing to our terms and conditions. You are also agreeing to a property release provision that will allow Alex's Proscapes, LLC to take & use pictures of your property in the promotion of our business and on any social media platform.*

***Inspection and permit fees are not included in price.*

TERMINATION POLICY: Either party can choose to terminate this contract based on unsatisfactory work, lack of payment or other mutually agreed upon circumstances, with 15 days written notice.

Should you have any questions about the information included, please don't hesitate to contact me. Alex's Proscapes, LLC appreciates the opportunity to offer our services to you. We will strive to not only meet but exceed your expectations. We look forward to building a long-term relationship with you.

Changes to the above contract:

Additional Information:

Prices are based off current fuel prices. If the cost of fuel rises above \$5/gallon, a fuel surcharge may be assessed. Please note that this is not an attempt to increase profits – it is only meant to cover additional costs. We thank you for the opportunity to bid on your property! Please feel free to call us with any comments, questions, or concerns. We look forward to serving all your landscaping needs for the upcoming season!

* PA sales tax will be added to quoted prices denoted by an asterisk (where applicable)
